Dear Alfred

How was it at Poland when the World War 2 started? I was born in Poland too in 2010. I wish you were alive. How is it in heaven? Someone today was very nice to me - it is all my class and school. I love your stories Alfred, they are so so amazing to me. Poland is my loved country in my life. I wish World War 2 never started. I know that you only have one piece of bread – that is definitely not great. I feel sad for you Alfred. I know you're safe in heaven. Mr. Parson says you have the best stories. I think you are happy in heaven.

My grandma died. When I started this school I felt very frightened but my friend Natalie helped me be happy here. This school is the best. Alfred, how did it feel at the camp? I have two dogs and two cats, a 100 fish with a big tank for my fish. I wish you the best Alfred. Germany in World War 2 dropped bombs for no reason on Poland. We had done nothing.
